

# SAME SIDE SELLING

### **CASE STUDY**

Within three years of adopting Same Side Selling, our sales grew from \$17M to over \$100M without adding a bunch of salespeople.

- HOWARD ROGERS, CEO & President of BrightClaim

#### BACKGROUND

BrightClaim provides insurance companies and self-insured businesses with consistent daily and catastrophe claims related services that support their clients' needs. They have a track record of increasing customer satisfaction while reducing the costs associated with claims. They were growing at about 8-10% annually and knew that they could help many more companies and accelerate growth; they just needed to uncover the right approach to earn attention and help their clients understand BrightClaim's value.

#### WHY IT MATTERED

Even though they had amazing capabilities, they were having a hard time capturing the attention of their ideal clients. This had a great deal to do with the fact that each person on their team had their own way of identifying and qualifying opportunities. They knew that if they didn't find a consistent method to capture the mindshare and market share quickly then other providers could encroach on their market.

#### **RESULTS**

In the 3 years before adopting Same Side Selling they were growing between 8% and 10% per year. In the 3 years after adopting Same Side Selling they grew a total of 500%, and were recently acquired by Genpact in 2017.

#### **KEYS TO SUCCESS**

Ian Altman spoke at BrightClaim's national sales conference which their CEO, Howard Rogers said was "an awakening." They followed a consistent process centered on how clients make decisions and seeking the fit for the problems BrightClaim solves for its clients. They grew from \$17 million to over \$100 million in 3 years.

#### ISSUE

Loss of clients because they weren't capturing their attention;
Inability to identify and qualify opportunities;
Standing out from the competition.

## IMPACT & IMPORTANCE

Fewer clients for whom they are making a difference.

#### **RESULTS**

Shorter sales cycle;
Didn't have to add a bunch of sales people to the team;
Nobody feels like they are "selling" anything.

#### **KEYS TO SUCCESS**

Common language and system that everyone follows; Focus on problems they solve, rather than what they sell; Quickly understand which opportunities are a good fit.
